Streetlight Charge Approved for 2025

The Village of Shorewood approved a streetlight charge in 2025 to generate an estimated \$700,000 in revenue to fund maintenance and implementation of a new streetlight system. This charge will be paid by each parcel in the Village. The Village Board will be evaluating an ordinance to implement the charge and will further work on how the fee for services will be charged to each parcel. For more information on the Village’s streetlight system visit the website: www.villageofshorewood.org or scan the QR code below.

History & Replacement Phases

The majority of Shorewood’s streetlight system was installed in the early 1970’s and has reached the end of its useful life. Approximately 1,500 fixtures light the Village’s roadways, parks and municipal parking lots. Multiple reoccurring outages in recent years have prompted planning for the replacement of the residential streetlight system. A Preliminary Design Study was presented to the Village Board on June 3, 2024. The plan’s recommended implementation schedule has been incorporated into the Village’s Long Range Financial Plan with construction proposed over five phases beginning in 2025 and concluding in 2029.

Vehicle Registration Fee

The Village Board approved an ordinance to implement a \$30 Vehicle Registration fee, to be administered by the Department of Motor Vehicles, beginning in March 2025.
