

NOTICE

Please be advised that water service connections to the newly installed water main on your block will take place beginning the week of

A temporary service interruption will be required to complete this work. **You will be notified prior to the water being shut off to make this connection.**

When service has been restored, you will be advised to perform a whole house flush. This procedure is outlined on the reverse of this notice and should be performed **PRIOR TO USING WATER FOR DRINKING OR COOKING.**

A water filtration pitcher has been delivered with this notice. Following the connection of your new service, please use this pitcher to filter water for drinking and cooking for the next 60-90 days. A supply of replacement filters has been included.

If you have any questions, please contact the Department of Public Works at 414-847-2650.
